GABRIELA OJEDA SEMIDEY

PRODUCT OWNER | SERVICE & PRODUCT STRATEGY

Madrid, Spain · gabrielaojedasemidey@gmail.com · Portfolio · LinkedIn

PROFESSIONAL SUMMARY

Product Owner with experience turning complex problems into clear, high-impact products. I work at the intersection of business, users, and technology, prioritizing what generates value and guiding cross-functional teams to align strategy and execution. I've led digital, hybrid, and in-person products and services across sectors such as healthcare, banking and multilateral institutions, education, and sustainability, applying data analysis, systems thinking, and product vision to make informed decisions. My background in Service and UX Design enhances my ability to translate insights into actionable solutions and align business objectives with user needs.

PROFESSIONAL EXPERIENCE

Independent Consultant — Product & UX / Service Strategy

Jan 2025 – Present · Remote (LATAM & Spain)

- Provide consulting and mentorship in UX, Service Design, and product strategy for clients and multidisciplinary teams.
- Facilitate workshops to translate user insights into concrete product decisions.
- Guide the implementation of tools and digital workflows to support product delivery.

Fruta Global – Project Cúbico "Improve your Energy" — Service Designer

Mar 2023 – Jul 2023 · Morón de la Frontera, Seville, Spain · Client: Cubico Iberia · Team of 4

- Led the conceptualization of a sustainability education program based on Design Thinking, in partnership with two schools (secondary and vocational education).
- Designed and facilitated 4 discovery workshops with young people from the community and 4 training sessions for 12 teachers on human-centered design methods.
- Designed original pedagogical tools and coordinated the program's rollout into both schools' curricula.

Outcome: 85 participating students, 12 sustainable projects developed, and 1 winning project implemented with tangible community benefits.

Continuum HQ — UX & Service Designer / Lead Service Designer

2019 – 2022 · Lima, Peru, with projects in Chile and remote international work

- Led research, service design, and backlog management on digital projects for clients including the IDB (BID), Clínica Alemana de Santiago, and UPC, coordinating cross-functional teams of up to 7 people under agile methodologies.
- Designed and supported the incremental launch of a scheduling and telehealth platform for Clínica Alemana de Santiago, coordinating with the development teams at Globant and 2Brains.
- As Lead Service Designer, led research and redesign strategy for the IDB Secretariat's services across 7-10 countries, interviewing 80+ stakeholders and delivering a backlog of organizational recommendations adopted to restructure the department.
- Redesigned UPC university's admissions process through an omnichannel proposal validated with real users.
- Co-defined OKRs and KPIs with each client in kickoff workshops, aligning research, design, and development under Design Thinking and agile methodologies (Scrum/Kanban).

Outcome: +20% in teleconsultations and +30% adoption of the online booking platform at Clínica Alemana de Santiago; -40% in billing and document complaints, and 1,500+ telerehabilitation sessions, after the telehealth platform launch; the IDB report was used to restructure its entire Secretariat.

Spotify Project (via Continuum HQ) — UX Researcher

2020 · Peru/Chile/UK (remote) · A Continuum HQ project in partnership with the consultancy Ayer Viernes (Chile) · Client: Spotify · Under NDA

- Designed and ran a bilingual (ES/EN) qualitative study on why Peruvian users subscribed directly to Spotify Premium without going through the free tier first.
- Refuted the client's initial hypothesis about perceived value with qualitative evidence, delivering a report with strategic conversion recommendations for the global team.

Project under NDA: proprietary findings cannot be shared, only the methodological approach and my role.

Beta User Testing and Experimenting — Service Designer

2019 – 2020 · Peru

- Conducted usability testing and user research for clients including Pacasmayo, Interbank, and Continuum, among others, in high-complexity environments.
- Delivered actionable insight reports to optimize conversion and user satisfaction.

Most of these projects are under strict confidentiality agreements; the specific solutions tested and findings cannot be detailed.

Creative Lab — Service Designer (Junior) · MINCETUR "Construcción Futura" Project

2018 (approx.) · Peru

- Co-designed and facilitated an intensive 3-day workshop for CITE (innovation center) leaders from across Peru to co-create a replicable management model.
- Translated technical requirements and government-mandated KPIs into practical tools the teams could implement immediately.

Outcome: 100% of participating CITE centers left with an implemented model; the tools were still in use 2 years later.

TALI — Corporate Travel Agency — Researcher / Service Designer (freelance)

2018 · 2 months · Peru

- Defined 4 user profiles and mapped their differentiated flows for a corporate travel management platform.
- Led, together with the team, brand-building from scratch and feature prioritization by user profile.

Outcome: delivered a complete proposal (research, brand, functional landing page); the project was paused due to funding, not design viability.
